DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, drawn to a multifunctional food preparation apparatus, classified in class 219, subclass 400.
- II. Claims 14-21, drawn to a cooking oven, classified in class 126, subclass 21A.
- III. Claims 22-26, drawn to a food preparation oven, classified in class 219, subclass 401.
- IV. Claims 27-31, drawn to a multifunctional cooking oven, classified in class 219, subclass 494.
- V. Claims 32-33, drawn to a cooking oven, classified in class 126, subclass 25R.
- VI. Claim 34-37, drawn to a method of producing a usable by-product from a food product, classified in class 426, subclass 523.

The inventions are distinct, each from the other because of the following reasons:

The inventions as claimed are independent since they are not connected in design, operation or effect, i.e., each invention is separately usable and the operation, design and effect of one is independent of the other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and

because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
